Passenger cars

Technical information: VKJP 01000

Universal cut-to-size boot for CV-Joints with outer diameter from 57 mm up to 120 mm.

CV-joint outer diameter

A	$22 < \emptyset < 39 \text{ mm}$
B	$57 < \emptyset < 90 \text{ mm}$
C	$91 < \emptyset < 100 \text{ mm}$
D	$101 < \emptyset < 110 \text{ mm}$
E	$111 < \emptyset < 120 \text{ mm}$

When fitting the universal boot onto the CV-Joint, it is recommended to cut the boot to size after having tightened the clamp.

For a professional repair, when tightening the clamps it is recommended to use the specific tool. Incorrect tightening of the clamps can cause premature failure of the CV-Joint.
