Technical Bulletin - May 2010

Light Commercial Vehicles

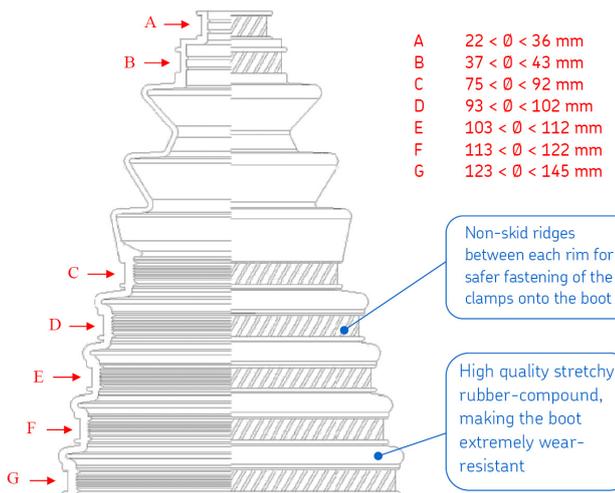

Technical information: VKJP 01003

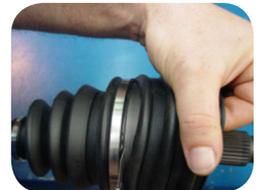

Universal cut-to-size boot for CV-joints with outer diameter from 75 mm up to 145 mm.

VKJP 01003: Product features

When fitting the universal boot onto the CV-joint, it is recommended to cut the boot to size after having tightened the clamp.

For a professional repair, when tightening the clamps it is recommended to use the specific tool. Incorrect tightening of the clamps can cause premature failure of the CV-joint.
