## ***Mounting Instructions***

### ***Ballast unit 12V***

## Safety instructions

- Always switch off the headlamp before exchanging bulbs and disconnect from the power supply.

- Never insert foreign objects or fingers into the connector.

- The ballast must never be operated without a bulb, as dangerous voltage spark-over, which can cause damage/injury, may occur at the connector.  
**CAUTION! Danger!**

- The electronic ballast is only to be disposed of as specially categorised waste.
