

# MANN-FILTER

## Product Information

No. 159  
08.09.2020

### PU 999/1: Less pleats – same performance

Changed appearance, but still the accustomed original equipment quality. That's what you get with MANN-FILTER after a change of pleat numbers and filtration area on PU 999/1 .

With the use of MULTIGRADE-media MANN-FILTER ensures highest filtration performance and protection of the injection system against harmful particles. Thanks to refined and high-quality filtration media MANN-FILTER achieves at least the performance of the OE-Filter and needs less filtration area to do so.
