Supplement for special tool 400 0237 10

M9 stud bolt set

Manufacturer: MINI

Models: R 50
R 52
R 53

Special tool 400 0237 10 from Schaeffler Automotive Aftermarket was developed especially for assembly SACs (self adjusting clutches) and conventional clutches.

With its broad assortment of components, it can be used on a very large range of vehicles. Now the application area of the special tool can be expanded even further.

In its basic configuration, the special tool has 4 stud bolts each of sizes M6, M7 and M8. These are screwed into the flywheel and hold the spindle carrier. The MINI models listed above use flywheels fitted with M9 threaded holes. These vehicles require the set of M9 stud bolts.

The M9 stud bolt set with the Part Number KL-0500-4012 is available directly from the manufacturer, GEDORE Automotive.
