### IMPORTANT NOTE:

Despite the variation in design, both deflector pulleys can be used for the vehicles listed in the catalogues without restrictions.

Image 1: Previous design made of metal

Image 2: New design made of plastic

The running surface of deflector pulley 55244 has been changed from metal to plastic as part of our efforts to continuously develop our products.

It is possible that deflector pulleys with metal pulleys as well as plastic pulleys will be delivered during the transition period.
