

MEYLE PRE-ASSEMBLED TIE ROD: WHERE OTHERS SEE PROBLEMS, THE MEYLE TIE ROD OFFERS SOLUTIONS

The tie rod helps you stay on track and master bends, but also faces many challenges. So it's a good job that MEYLE not only considers all the factors, but also thinks ahead.

In many ways, our pre-assembled tie rod is a real game changer for workshops – and therefore everyone behind the wheel. With few risks, but lots of benefits.

/ Pre-assembled market innovation

Our MEYLE ORIGINAL and HD tie rods are already fully assembled, which not only simplifies replacement, but is unique on the market. Our repair solution specially tailored for workshops.

/ All-inclusive replacement

Our tie rods come with the boot and attachment materials – ready to install straight away.

/ Saves a lot – especially time and space

The time-consuming removal of damaged tie rod components during the repair process is now a thing of the past. Our fully pre-assembled tie rod saves mechanics time and hassle. The axial rod, boot and tie rod end assembly are already attached and come in a box, which also saves space in the warehouse and significantly reduces packaging for the world out there. It's a win-win, wouldn't you say?

/ A guarantee born of conviction

Engineered and tested in Germany. We believe in our products and offer a 4-year guarantee* for our pre-assembled HD tie rods.
