C30
C70
S40
V50
V70

Part no.: 713 0088 20

See parts catalogue for current assignment

Fig. 1: Strut support with splash guard (left) and without (right)

The original design of strut mount 713 0088 20 has been modified.

It can be used without restriction and without modifications, however, on the vehicles listed.

In the course of product improvement, an additional splash guard (like a seal) has been added to the outside diameter of the strut mount. It prevents dirt and moisture from penetrating into the roller bearing inside. This extends service life considerably.

Please observe the vehicle manufacturer specifications!
