Tension pulley

febi no. 11559

Ref. no. 074 109 243 F

fits

Audi A6 / Avant / Quattro (Ref. no. 074 109 243 F)

VW Transporter (T4) / Syncro (Ref. no. 074 109 243 F)

VW LT (Ref. no. 074 109 243 F)

>> PROBLEM:

The tension pulley loosens.

>> CAUSE:

The bolt required by the vehicle manufacturer can loosen. Consequently, the position of the tension pulley can change, and (in the worst case scenario) cause serious engine damage.

Ref. no. 074 109 243 F

>> SOLUTION:

febi bilstein offers a safe alternative!

febi bilstein now supplies the tension pulleys febi 14732, 11559 and 11560 with a special bolt featuring a micro-encapsulated safety device. The safety device on the bolt keeps the bolt tightened to specifications and, therefore, it cannot loosen prematurely. This prevents warranty claims and engine damage.

e.g. febi no. 11559
Ref. no. 074 109 243 F

>> ATTENTION:

The torque of the febi special bolts is 20 ± 1.5 NM.
