PR Numbers

PR-Nummer für Bremssystem Vorderachse  
PR number for front axle brake system  
Numéro PR pour le système de freinage avant  
Número de PR para el sistema de frenado del eje delantero  
Numero PR per impianto frenante anteriore

For Audi, Seat, Škoda, and Volkswagen vehicle models, replacement parts and service information is only possible with the help of a PR number (primary equipment).

You can find the PR number on a sticker located in your service booklet on the first page or in the boot of your vehicle.

The differing PR numbers for identifying the brake system are always in the same place on the data sticker.
