

890761 MULTI-FIT COMPRESSOR

replaces two other compressor models (89021 & 89025)

From 1996 until 2003 the VW Group introduced two different compressors on models like VW Golf, Skoda Octavia, Audi A3 and Seat Leon. The only difference was that the connector was square on the early models and the connector was changed to become oval.

Instead of having two part numbers covering the range of models, Nissens has decided to make a Multi-Fit model. This is part number 890761, which includes an adaptor to ensure that the compressor covers all the different models.
