

NUMBER OF CONNECTIONS

60825

Nissens radiator 60825 covers both first and second version of BMW radiators which have different number of connections.

First version radiator: Before 12-2009

The first BMW radiator version had 4 connections used in connection with hose OE 1153 7609 944 (red). This expired 12-2009.

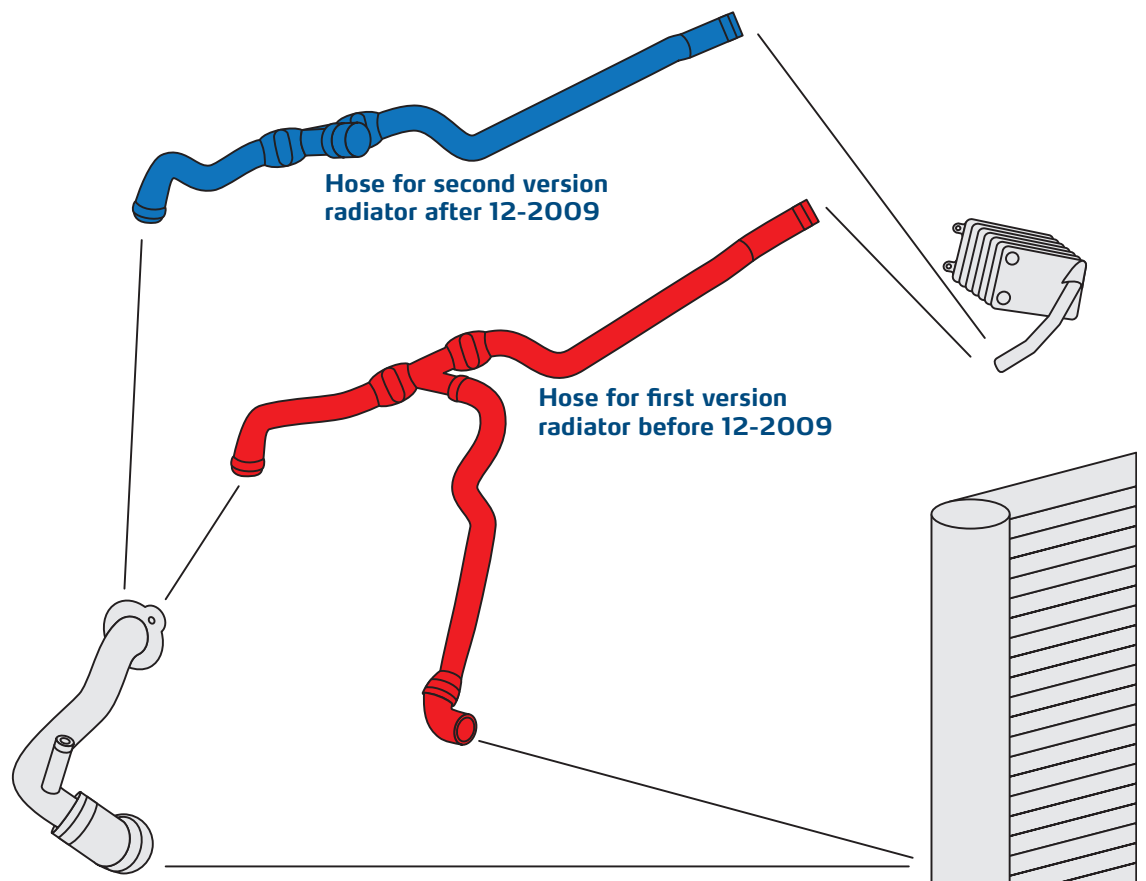

In the first version the hose is also connected to the fourth connection in the radiator.

Second version radiator: After 12-2009

The second BMW radiator version after 12/2009 only has 3 connections used with hose OE 1153 754 7244 (blue).

In the second version the hose is only connected to three connections in the radiator.

Both hose versions are connected to the engine oil heat exchanger and to the water hose.

For more technical product information, please consult our online catalogues at www.nissens.com/catalogue, or contact your local sales office or one of the official Nissens distributors.
