## FIAT 1.3 Multijet Timing Chain Kit Supersessions

We're consolidating this range of highly popular kits to allow for maximum vehicle parc coverage of every kit you stock and to make it easier to identify which one is needed for a particular application. How can one kit replace another? This is possible by offering the latest specification of parts that cover the newer models they were intended for but can also be retro-fitted to earlier generation vehicles. Please see below for a simple guide and visit [faiauto.com/ecat](http://faiauto.com/ecat) for full application details

**TCK6**
