## SS2227XT

### Extra Heavy Wishbone Bush for VAG

With road surface deterioration, traffic calming and an increase in average annual mileage putting more strain on the wishbone rear bush, FAI have re-engineered the SS2227 to be better. Our top performing **SS2227XT** is the best solution for tougher driving conditions.

Audi A3 2003 - 2012

VW Golf VII 2012 - Present

Seat Leon 2005 - 2012

#### How does it work?

The housing of the **SS2227XT** version is manufactured in steel whereas the SS2227 is manufactured in plastic meeting OE specifications. The **XT** version uses a greater density of rubber material providing greater resistance.

[Click here for a full list of applications](#)

#### The Benefits?

The FAI **XT** version offers two key benefits, which are:

### Increased longevity & More precise handling

#### The Fitment?

Please ensure that the protruding rubber section as highlighted below is aligned with the thin crease to the outside of the wishbone. **Failure to do so will impede the effectiveness of the design.**

Best Availability. Best Value.  
Best Quality. Best Service.
