Schaeffler Automotive Aftermarket provides two different versions for the item number 534 0130 20.

The fundamental difference between the two tensioning arm designs is the colour of the pulley and the coating of the fixing bolt.

However, there are no technical differences. Both tensioning arms can be used without restrictions for the specified vehicles.

Note the specifications of the vehicle manufacturer!

Appropriate spare parts can be found in our on-line catalogue at www.Schaeffler-Aftermarket.com or in RepXpert at www.RepXpert.com.
