

# NEW PRODUCT HIGHLIGHT | OCT2022

## Blue Print ADBP800443

To fit:

Hyundai Nexo 2018>, Tucson 3 2015 > 2021,  
Tucson 4 2020 > Kia Sportage 5 2021 >

EN

### Rear-axle strut mounting kit

#### Function

Bolted to the inner-rear wheel arch of the vehicle, the rear-axle strut mount provides an attachment point for the rear shock absorber. The internal rubber bush helps to isolate the cabin from any noise, vibration and harshness (NVH) entering the passenger compartment.

#### Cause of failure

The Hyundai Tucson and Kia Sportage are both popular vehicles to tow with. Towing caravans and trailers near to the maximum permissible towing weight of the vehicle increases wear on the rubber insulation, which can cause a 'squeak' or 'knocking' sound when travelling over rough road surfaces (depending on how worn the rubber insulation is).
