

EUROLUB FORMEL 2 10W-40

Description

FORMEL 2 10W-40 is a low-friction engine oil. Modern refining technology, combined with high-quality lubricant components and highly shear-stable VI improvers, ensures that the specified viscosity grade is maintained throughout the oil's service life. Reliable cold starts even at low temperatures and high-temperature resistance under heavy loads are guaranteed. Cleaning additives prevent deposits, keeping pistons and valves clean and ensuring the maximum permissible oil retention time.

Can be used with

ACEA A3/B4
API CF/SL

Delivery

Art.-No. 237005	168 x 5 Liter	can
Art.-No. 237060	12 x 60 Liter	drum
Art.-No. 237208	2 x 208 Liter	drum

Technical Data

Data	Unit	Method	Value
Density at 15°C	kg/L	DIN 51 757	0.867
Viscosity at 40°C	mm ² /s	DIN 51 562	98.0
Viscosity at 100°C	mm ² /s	DIN 51 562	14.4
Viscosityindex (VI)	-	DIN ISO 2909	154
Flash point (COC)	°C	DIN ISO 2592	226
Pourpoint	°C	DIN ISO 3016	-30
