

40-1003FK vs 40-1122FK

! IJS GROUP products should be replaced by a qualified automotive installer. This information is provided for reference purposes only. Always consult the manufacturer's specifications.

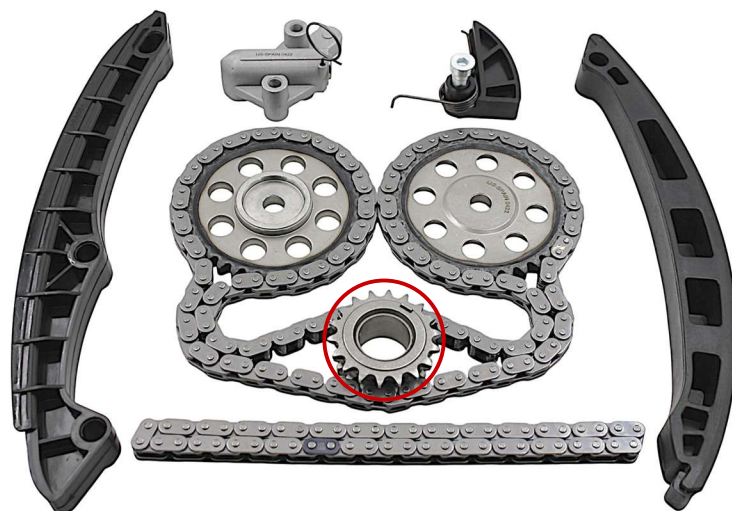

IJS GROUP supplies two kits similar timing chain kits: 40-1003FK and 40-1122FK. Both kits share several components, including the timing chain, guide, tensioner, and camshaft sprocket. The key difference between them lies in the crankshaft sprocket, ensuring proper compatibility and correct installation depending on the application.
